

Mechanisms of Neurodegeneration

EMBO | EMBL
Symposium
14–17 June 2015
Heidelberg | Germany
EMBL Advanced Training Centre

KEYNOTE SPEAKER

Thomas Südhof
Stanford University School of
Medicine, USA

CONFIRMED SPEAKERS

Adriano Aguzzi
University Hospital of Zurich,
Switzerland

Michael Heneka
University Hospital Bonn, Germany

Laura Ranum
University of Florida, USA

John Collinge
University College London, UK

David Holtzman
Washington University School of
Medicine, USA

Charles Sabine
Journalist, UK

Ana Maria Cuervo
Yeshiva University, USA

Bradley Hyman
Massachusetts General Hospital, USA

Bart De Strooper
KU Leuven, Belgium

Beverly Davidson
University of Iowa, USA

Mathias Jucker
Hertie Institute for Clinical Brain
Research and DZNE, Germany

Luca Scorrano
Venetian Institute of Molecular
Medicine, Italy

Hans-Ulrich Demuth
Fraunhofer-Institute of Cell
Therapy and Immunology (IZI),
Germany

Virginia Lee
University of Pennsylvania School
of Medicine, USA

Dennis Selkoe
Harvard Medical School Center for
Neurologic Diseases, USA

Chad Dickey
University of South Florida, USA

Eva-Maria Mandelkow
DZNE, Germany

Paul Taylor
St. Jude Children's Research
Hospital, USA

Dieter Edbauer
DZNE, Germany

Colin Masters
University of Melbourne, Australia

Li-Huei Tsai
MIT, USA

André Fischer
Göttingen Graduate School for
Neurosciences, Biophysics, and
Molecular Biosciences, Germany

Timothy Miller
Washington University, USA

Ryan Watts
Genentech, USA

Todd Golde
University of Florida, USA

Richard Morimoto
Northwestern University, USA

Bengt Winblad
Karolinska Institutet, Sweden

Jürgen Götz
The University of Queensland,
Australia

Manuela Neumann
DZNE, Germany

Konstanze Winklhofer
Ruhr University Bochum, Germany

Christian Haass
DZNE, Germany

Rosa Rademakers
Mayo Clinic, USA

ABSTRACT SUBMISSION
DEADLINE

22 MARCH 2015

REGISTRATION DEADLINE

3 MAY 2015

ORGANIZERS

Christian Haass
DZNE, Germany

Todd Golde
University of Florida, USA

Karin Dumstrei
The EMBO Journal, Germany

Additional speakers will be
selected from abstracts.
