About the Conference

The ability to grow human tissues from stem cells in 3D culture has the potential to revolutionise the drug discovery process and regenerative medicine. Building on a long tradition of cell and developmental biology knowledge, organoids resembling a variety of human tissues have been generated. This symposium will bring together the leading researchers in this field to establish a new research community and reveal parallels between various tissue models.

Topics

- Multicellular interactions and microenvironment
- Recapitulation of developmental processes
- Genetic disease modelling
- Tissue engineering

Aims

The aim of this meeting is to bring together researchers from different fields to enhance our understanding of how organoids can be formed and maintained, how they can be used to study disease and how we might eventually use them to regenerate and replace human organ tissue.
EMBL offers a variety of event sponsorship possibilities, with the flexibility to select a set sponsorship package (see below) or combine individual sponsorship options to suit your event budget.

| **Lanyards for conference badges**  
(max. 1 per event)  
Given to all participants and speakers (to be provided by sponsor) | € 1,500 |
| **Notepads, pens and other promotional materials**  
(max. 5 per event)  
Given to all participants and speakers (to be provided by sponsor) | € 800 |
| **Coffee break sponsorship for duration of event**  
(max. 1 per event)  
- Acknowledgement as coffee break sponsor in abstract book and in online programme  
- Link to company website in the online programme  
- Table signage with your company logo  
- Company logo in abstract book  
- Company logo on sponsor acknowledgement board in registration area  
- Company logo on holding slides  
- Promotional flyers on tables in coffee break area | € 3,000 |
| **Photobooth Sponsorship**  
(max. 1 per event)  
Complete branding of the photobooth in addition to company logo and website featured on each printed souvenir photo taken by participants | € 1,200 |

Companies who sponsor a minimum amount of € 3,700 are automatically recognised as “Bronze Sponsors” on the website and in the abstract book.

* Larger booth spaces are also possible. Prices available upon request.
**EMBL Advanced Training Centre**

### Multiple event sponsoring

Sponsors wishing to exhibit at more than one EMBL conference per calendar year are entitled to a multiple event discount on all sponsorship options. If the sponsor subsequently cancels one or more event sponsorships, the multiple event discount will be reduced accordingly for all sponsored events.

**EMBL Corporate Partnership Programme Members** are automatically entitled to a 20% discount on all sponsorship options**.

** Additional multiple event discount is not possible**

### Auditorium | Exhibition | Catering Area

The exhibition area is located in the foyer immediately outside the main auditorium. Coffee breaks and lunches take place in the foyer.
The European Molecular Biology Laboratory wishes to thank the members of the EMBL Advanced Training Centre Corporate Partnership Programme.

Their support makes it possible to host conferences and courses on emerging topics and it enables us to continue to offer excellent scientific quality of our events.

If your organisation would like to receive information about the EMBL Advanced Training Centre Corporate Partnership Programme, please contact Antonio Costantino at antonio.costantino@embl.de

Cross-Promotional Activities: please contact: sponsorship@embl.de | Please state clearly in which event(s) you are interested.
The European Molecular Biology Laboratory (EMBL), established in 1974, is supported by 23 member states and two associate members. Operating from six sites in Europe, EMBL is one of the top research institutions in the world, and is Europe’s leading laboratory for molecular biology. More than 1,700 people from 60 nations currently work at EMBL.

The cornerstones of EMBL’s mission are: to conduct basic research in molecular biology, to provide essential services to scientists in its member states, to provide high-level training to its staff, students, and visitors, to develop new instrumentation for biological research, and technology transfer.
